JUNE 17TH 2020

JUNE 2020 NEWSLETTER. NUMBER 17

From the director :

Good morning everyone,

As René LESSARD said

“ Thanks to difficulties, we discover unsuspected qualities ”

It is in this thought that we must react.

We need to analyze what brought us this Covid 19 pandemic and bring out our qualities. These new qualities make it our post-crisis policy in order to assemble together a territorial sovereignty that we had lost sight of.

By this approach we will see that we had knowledge and skills that we would ignore.

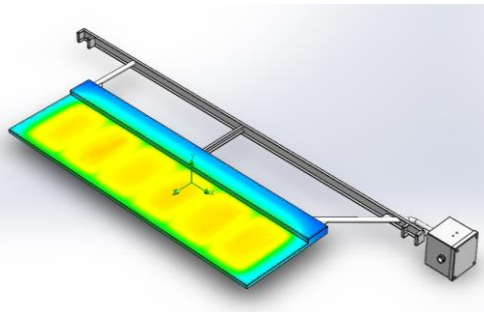

To get out of it, we have to have this team player, and we will do everything to achieve it.

Talk to you soon...

Laurent NANET

Our activity is, for the moment, still partial. A slight increase of activity has been noted and we hope to return to normal as soon as possible.

We also wish to communicate our range of SLIM hot plates, which is more ecological due to its lower electricity consumption, minus 23% for equivalent final heating. You can consult the product sheet by clicking below: <https://aeva.fr/wp-content/uploads/2020/06/Plaques-chauffantes-slim.pdf>

Due to strong customer demand, our range of standard caps is changing. The arrival of new **double thread plugs**, which are therefore more practical and adapted to demand, is now implemented in our manufacturing.

For your information, A.E.V.A will be closed for annual summer holidays from 03 August 2020 to 21 August 2020 inclusive.
Remember to send us your orders now!

Follow the next newsletter for new information.
